

List of licensed septic tank pumpers in Guthrie County

August, 2009

This is the list of licensed septic tank pumpers in Guthrie County. The County makes no claims as to the quality of the work and in no way is recommending any particular firm. Firms have to be licensed to work at the Lake. If you choose to use another firm that is not listed, the firm needs to obtain a license prior to pumping your tank.

State law requires that anyone wishing to pump septic tanks, holding tanks, etc. now has to be licensed through the Dept. of Natural Resources. Those wishing to do tank pumping have to submit an application, develop a "manure" management type plan on waste disposal, and then can get a license to operate. No one can pump tanks for hire without going through this procedure. Anyone that is licensed in the State can pump tanks in Guthrie County with the exception of working within Jamaica, Bagley, Yale, and Lake Panorama. In those areas there are private sewage disposal management districts operated by Guthrie County. It is essential that all tank pumping be reported to the County for record-keeping purposes.

Consequently, the County has developed a list of firms that are approved for working in these special areas. The pumpers listed below have signed up to follow the procedures established for reporting work in these areas. Any other pumper who wishes work within these districts should contact the Environmental Health Dept.

Frank Jensen

2438 Hwy 25
Guthrie Center, IA 50115
641-747-3396

Dennis Mleynek

3119 210th St
Panora, IA 50216
641-755-2422

R & L Sock, Ltd

Rick Motsick
